

High Compression Engines Demand Tough Fuel

INTRODUCING...

HCR

Plus

The race fuel designed to operate in the harsh environment of high compression racing engines.

HCR

Plus

An ultra high performance leaded racing fuel designed for racing engines with very high compression ratios. HCR *Plus* is ideally suited for applications in sustained high load / high RPM conditions. This fuel contains no oxygenates and is very resistant to vapor lock.

Sunoco HCR Plus

FUEL PROPERTY

TYPICAL SPECIFICATIONS

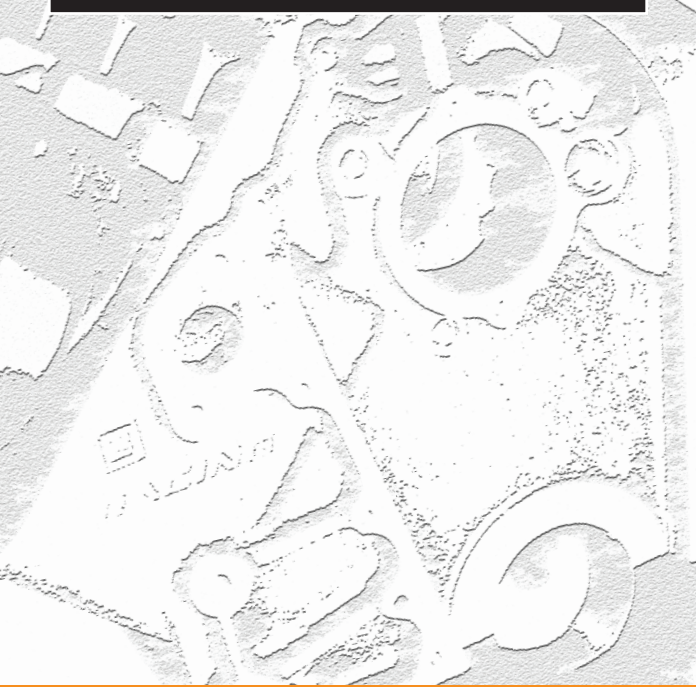

Specific Gravity 0.738

Antiknock Index, (R+M)/2 114

Leaded Yes, For Off-Road Use Only

Color Orange

Oxygen, Volume % None

Sunoco HCR *Plus* is recommended for four-stroke engines with compression ratios exceeding 14:1.
